KRT JEWELLERS

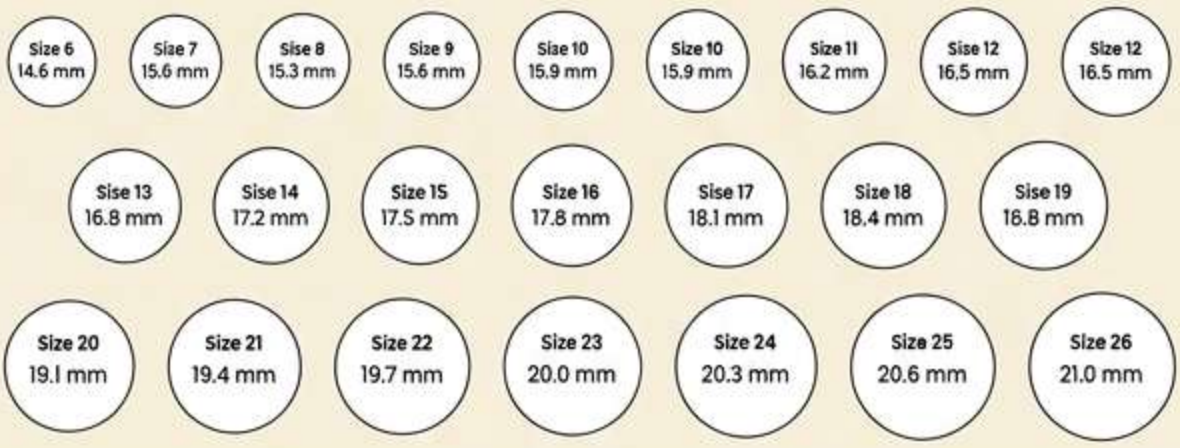

Indian Ring Size Chart

Before measuring your ring size, be sure 1 x guide is printed on US Letter-size and scaled to 100%. You can check the accuracy of your print by positioning a credit card on the line below. If the card lines up, you're all set.

Place Credit Card Here

Option 1 : Measure By Matching Your Existing Ring

To find your ring size, use an existing ring that fits you well. Match the inside of that ring with one of the circicles below. When your ring has been placed on the correct size, you should see only the white circle inside your ring. If your perfect fit is between two sizes, we recommend choosing the larger size.

Option 2: Measure with a String

1. Take a piece of a string/tape and wrap it around your intended finger.
2. Hold the string in place and mark the meeting point for both ends.
3. Measure the marked length (the inside circumference with a ruler) and refer to the chart below to find your ring size.
